

QUOTE WORKSHEET

For Magnetic Pulleys, Separation Magnets and Plate Magnets - See Pages 20-23 in our Magnetic Devices Catalog.

Please fill out as much information as possible and **fax to 1.800.874.6248**.
One of our customer service representatives will contact you shortly.

Name _____ Title/Position _____

Company _____

Address _____

City _____ State _____ Zip _____

Country _____ e-mail _____

Phone _____ Fax _____

1. Width of Conveyor / Belt Width _____

2. Degree of troughing idlers _____

3. Speed of conveyor _____

4. Degree incline of conveyor _____

5. Diameter of head pulley _____

6. a. Hourly volume and/or convey or capacity or tons/hour _____

b. Material density _____

7. Maximum conveyor burden depth _____

8. Type of material tramp iron being extracted _____

9. Maximum lump size _____

10. Minimum length of tramp iron to be extracted _____

11. Maximum length of tramp iron to be extracted _____

12. General shape of minimum size tramp iron:
Hex nut ____ Cube ____ Rod ____
Plate ____ Sphere ____

13. Type of material the tramp iron is being extracted from (ie: grain, wood chips, gravel) _____

14. Percent moisture _____

For Plate Magnets and Separation Magnets

15. Mounting position
- Inclined over head pulley _____
- Parallel over belt _____

16. Suspension distance from belt _____

17. Food service application _____

For Magnetic Pulleys

18. Keyway / offsets _____

19. Shaft diameter _____

20. Shaft length / extensions _____

21. Options: Lagging ____ Taper Locks ____
QD Bushings ____

Comments / Notes: _____
