Master Magnetics expands its product line at NHS 2019

Castle Rock, Colo., April 22, 2019 – For more than 40 years, [Master Magnetics Inc.](#) (The Magnet Source®) has focused exclusively on magnets, providing a highly profitable line of magnetic products to retailers throughout North America.

Under the Magnet Source® brand, Master Magnetics offers 250-plus tri-lingual, retail-packaged magnetic products for the Hardware, Home Improvement, Automotive, Craft, Hobby, Office/School Supplies and Housewares categories.

In addition to products, Master Magnetics' [retailer support](#) and merchandising offerings are unrivaled in the industry, and include floor and countertop displays, planograms, in-store POP signage, website customer referrals, and product content for retailers' websites.

This year, Master Magnetics is pleased to introduce and feature a variety of new magnetic products at the 2019 National Hardware Show, booth #7219. These new products add to Master Magnetics' industry-leading, extensive line of [retail-packaged magnets](#).

4-in-1 Magnetic Holding Arm

No matter what the project may call for, the [4-in-1 Magnetic Holding Arm](#) can lend you a helping hand. A heavy-duty, flexible arm attaches to a neodymium magnetic base, securely holding the magnet in place. The rubber-coated base is safe for all surface types. A second, smaller magnetic base holds the interchangeable mounting tools. Attachments include a spring clip, suction and clamp to hold notepads, flashlights, cell phones and more.

A 4"x5" metal plate with removable tape, 4 screws and 4 non-skid bumpers with adhesive is included for mounting on flat, non-ferrous surfaces.

Available as a 4-piece counter display, sold per piece in a clamshell packaging — \$39 MSRP.

Magnetic Phone Mount Car Vent Attachment

Mount your mobile device to any vehicle air vent for hands-free operation while driving with the [Magnetic Phone Mount](#). Powerful, neodymium magnets in the mounting plate securely hold your phone or other portable device in place for hands-free operation. A 3M VHB® adhesive secures the mounting plate to the back of your phone or phone case. The magnets will not harm the phone, GPS or other electronic devices.

Precision, swivel-ball technology in the base unit enables 360-degree adjustability, and is easy to use with just one hand. The mount can be set vertical, horizontal or any angle in between and is compatible with any air-vent angle.

Available in a single-package clamshell, \$8.26 MSRP.

A second version, the [Magnetic Phone Mount 3-in-1](#) includes a built-in seat belt cutter and glass breaker. In the event of an emergency, slide the belt cutter over the seat belt to free yourself, or strike the glass with the safety hammer facing the window.

Available in a single package-clamshell, \$12.68 MSRP.

Cup Caddy Plus

The [Magnetic Cup Caddy Plus](#) joins the Magnetic Cup Caddy as an efficient way to keep drinks, cans, spray paint, lubricant, small tools and more within reach. Powerful magnets attract to any ferrous surface including toolboxes, cabinets and even stationary vehicles.

The Cup Caddy Plus also features a 4" x 5" metal plate which can be mounted to non-ferrous surfaces with the included screws or adhesive.

Available in the same red or black design, the Cup Caddy Plus is an easy way to keep necessary tools or drinks close at hand while working in your shop, garage, office or home.

Available in single-boxed packaging, MSRP: \$7.99

Magnetic Key Caps™

Convert your keys into magnetic keys with attachable [Magnetic Key Caps](#). Made with neodymium, the strongest magnet material available, the durable elastic cap provides a secure, universal fit for all common entrance keys.

Simply insert any key into the magnetic key cap and to store or hide, place on a ferrous metal surface such as mail boxes, filing cabinets or more. Available in two color combinations – red and black or blue and black – for easy color-coded access. The Magnetic Key Cap is safe for use around computers devices, transponder keys, smart phones and USB flash drives.

The magnetic key caps are patented by Intu-Keys and distributed by Master Magnetics. A two-pack is available for \$2.98 MSRP.

Magnetic Key™

[Magnetic Keys](#) securely hold to all metal, ferrous surfaces such as door jambs, shelves, mailboxes and more. A neodymium ring magnet inserted into the key head holds the keys together, eliminating the need for a key ring. Available in multiple colors to keep keys organized, the Magnetic Key is safe for use around computers devices, transponder keys, smart phones and USB flash drives.

The keys come in standard colors of red, blue and black, additional colors are available upon request. Available in four styles: KW1 66; SC1 68; M1 69; WR5 67. Each key is available for \$3.98 MSRP.

Magnetic Multi-Lift

Quickly and easily pick-up small metal, ferrous parts with powerful ceramic magnets encased in a durable, lightweight plastic housing. Ideal for quick and easy transfer of bulk metal pieces, including nails, screws, nuts and much more. With a long 30-inch handle, this tool is perfect for picking up objects out of reach without having to bend over. A simple pull on the easy-grip handle releases the collected debris.

Available MSRP: \$28.50.

Magnetic Retrieving Magnet

This innovative magnetic tool can be bent and angled into crowded and congested small spaces to retrieve metal

screws, nails and more. The shielded sides won't attract to a metal surrounding until the magnet is activated with a push of the easy-grip knob. The heavy-duty flexible arm can snake through difficult or confined areas such as engine compartments, behind heavy equipment or shelving, down drains and more.

The thermoplastic handle and round knob are designed for comfort and a sturdy grip.

Available in an interactive "Try Me" package design, MSRP: \$15.60.
